

LIMITED EARLY PILOT PLACEMENTS · METRO DETROIT

Smart cooler & compact micro-market pilot placements for Metro Detroit properties.

RevoMart is launching modern self-serve drink, snack, grab-and-go, and everyday essentials placements for apartments, offices, gyms, hotels, and similar properties. We help qualifying locations test on-site convenience through a simple 60–90 day pilot, fully coordinated by us.

60–90 day pilot

No upfront equipment cost

Stocking & service handled

Local owner-operators

FORMATS

The right setup, recommended for the property.

Smart Coolers

BEST FOR TIGHTER FOOTPRINTS, STAFF LOUNGES, QUIETER PROPERTIES

A glass-front cooler with built-in checkout. The right call when space is limited or one clean self-serve point is enough.

Micro Markets

BEST FOR AMENITY FLOORS, BREAKROOMS, RESIDENT LOUNGES

Open retail-style shelving with a self-checkout kiosk. The full convenience-store experience, scaled to amenity-grade spaces.

Built to feel like an amenity, not a machine.

Format, presentation, and operations all matter — every setup is designed to feel like part of the property.

EARLY PROPERTY PARTNER PILOT

Start with a simple 60–90 day pilot.

We are currently selecting a limited number of Metro Detroit properties for early pilot placements. For qualifying sites, there is no upfront cost to test smart cooler or compact micro-market service on-site. Pilot fit depends on property type, traffic, location, equipment format, and expected usage.

HOW THE PILOT WORKS

01 Pilot fit review

We review your space, traffic, and goals to confirm pilot fit, then return with a recommended setup and footprint.

02 Setup planning

We coordinate equipment sourcing, install, payment system, and signage — scheduled around your building access.

03 Pilot launch

We stock the initial mix based on your audience and quietly open the placement for residents, employees, guests, or members.

04 Review at 60–90 days

We review actual usage with your team and decide together: continue, expand, adjust, build a revenue share, or remove.

Clear responsibilities. Zero operational lift.

A clean split between what RevoMart coordinates and what the property provides.

REVOMART HANDLES

- Equipment
- Installation
- Stocking & service
- Maintenance & cleaning
- Checkout technology

YOU PROVIDE

- Standard power outlet
- Common-area placement
